

IPVled®
Lichttechnik

Alder - Bay Lighting

Alder caters to Bay Lighting applications, where the working height ranges from 3 to 60 meters and where Bright, even and consistent performance lighting is required to maintain adequate standards of lighting on the ground. Applications include factories, warehouses, ship hangers, low bay indoor car parks and high bay airports & mall lighting and many more. In addition, IPVled products guarantee at least a 70% savings on power when replaced with traditional HID bulbs. Furthermore, IPVled lamps are available in two colors to deliver the aesthetic requirements. All of the IPVled products are designed to be lightweight, powerful, durable and highly customisable which are key features that distinguish IPVled from other brands.
